Journal of Engineering and Technology Management, 6 (1990) 331
Elsevier

Author Index Volume 6

Adler, P.S. and B. Borys, Socio-dets and techno-dets: Determinants of difussion and implementation patterns of automated machine tools 161-185
Aldridge, M.D., Technology management: Fundamental issues for engineering education? 303-312

Borys, B., *see* Adler, P.S. 161-185

Chakrabarti, A.K., Technology indicators: Conceptual issues and measurement problems 99-116
Clark, K.B., and T. Fujimoto, Lead time in automobile product development — Explaining the Japanese advantage 25-58

Dean, B.V., Y.-M. Yu and M.J. Schniederjans, A goal programming approach to production planning for flexible manufacturing systems 207-220

Ettlie, J.E., Intrafirm mobility and manufacturing modernization 281-302

Fujimoto, T., *see* Clark, K.B. 25-58

Gates, S., Semiconductor firm strategies and technological cooperation: A perceived transaction cost approach 117-144
Gold, B., Some key problems in evaluating R&D performance 59-70

Kimbler, D.L., *see* Motamedi, A. 145-159

McDonough, E.F., III, An investigation of the relationship between project performance and characteristics of project leaders 237-260
Merrifield, B., The overriding importance of R&D as it relates to industrial competitiveness 71-79
Mohrman, S.A. and M.A. Von Glinow, High technology organizations: Context, organization and people 261-280
Motamedi, A. and D.L. Kimbler, An economic comparison of acceptance sampling and statistical process control 145-159

Roberts, E.B., The personality and motivation of technological entrepreneurs 5-23

Schniederjans, M.J., *see* Dean, B.V. 207-220
Subramanian, S.K.,Managing technology — The Japanese approach 221-236

Von Glinow, M.A., *see* Mohrman, S.A. 261-280

Yu, Y.-M., *see* Dean, B.V. 207-220
